

Angier ABC Store

Allocated Release Policy

The Angier ABC Board is committed to a fair and transparent process for the release of allocated and limited-availability spirits. This policy outlines a random distribution system to give all legal-age customers an equitable opportunity to purchase these highly sought-after products.

Neither store employees nor customers will receive advance knowledge of when Angier ABC will drop allocated product or what products will be included. The decision will be made by either the General Manager or Store Manager.

A limit of one (1) allocated bottle per customer will be strictly enforced during a Random Drop, regardless of the variety of products available.

The General Manager and the Store Manager will have the discretion to adjust this policy to best serve our customers.
